

Obama's New Boss McCain vs. Brzezinski THE 2008 ELECTIONS

TIME

THE ME ME ME GENERATION

Millennials are lazy, entitled narcissists
who still live with their parents

Why they'll save us all

A better web. Better for the environment.

Google is creating a better web that's better for the environment. We're greening our company by using resources efficiently and supporting renewable power. That means when you use Google products, you're being better to the environment.

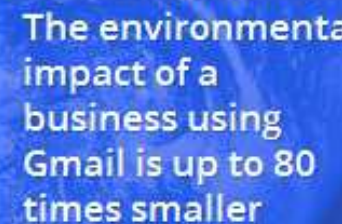

We've eliminated
our impact on
climate change
since 2007

A photograph of a wind turbine in a field, overlaid with a semi-transparent yellow filter.

Our data centers use
50% less energy than
the typical data
center

A photograph of a data center building, overlaid with a semi-transparent green filter.

We've invested over
\$915 million in
renewable energy

A photograph of solar panels, overlaid with a semi-transparent red filter.

The environmental
impact of a
business using
Gmail is up to 80
times smaller
